

“AS IF YOU WERE THERE”

Climate Adaptations in Worcester

@USDAClimateHubs

January 24, 2017 | Erin Lane

Northeast Climate Hub

A Cross-USDA Partnership With Land Grant Universities, Tribes, NGOs, States & other Federal Agencies

- Deliver science-based, regionally specific **information, tools, & practices** to assist producers in achieving their goals in today's climate
- Help farmers and foresters adjust and adapt to climate change by demystifying the concept and supporting climate-informed decision-making to stay profitable
- Focus on what's happening now **Virtual demonstrations of climate adaptations using 360° photography and videos**

- Highlight adaptation actions that work to achieve goals and reflect landowner values.

Viewers can “visit” places using innovative technologies, practices, and systems

Education before adoption

Virtual Equipment

RICOH THETA S

iPad mini

Roundme.com

“Virtual Tours Made Simple”
“World’s most hassle-free 360° VR publishing and panoramic tours authoring platform.”

Tie it all together with a Story Map

Select sites to “visit” based on location, type of agriculture or forestry, or type of adaptation or mitigation practice in use.
